AMENDMENT AFTER FINAL

Sir:

In response to the Office Action dated October 22, 2002, please consider the following:

IN THE CLAIMS

The amended and any added claims are below, the rewritten form of which are in the appendix.

Cancel claim 20.

1. (Amended) An eye shade apparatus having a variable transmission comprising:

an electo-optic lens;

a variable power source for controlling the transmission of said electro-optic lens to have a nonuniform light transmission;

said electro-optic lens comprises a plurality of regions, said variable power source comprises a plurality of power outputs, each of said plurality of power outputs corresponds to at least one of said plurality or regions;
